

# Erasmus+

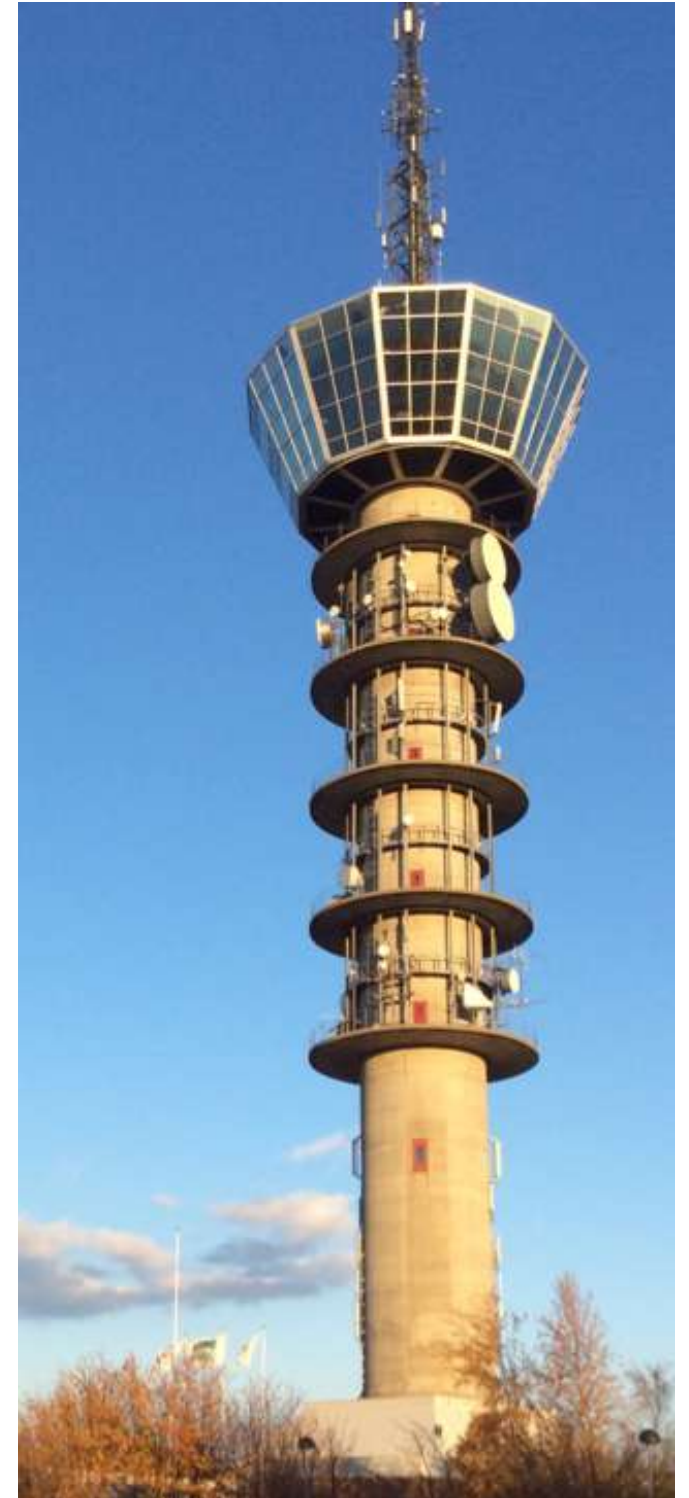

Teaching in the digital age

Trondheim

17. - 21. October 2016

# Trondheim

# Byåsen Videregående Skole

# **Byåsen Videregående Skole**

- new school with highly modern equipment
- more than 1050 students
- more than 225 employees

# Meeting agenda

- job shadowing at Byasen VGS

- University
  - new approaches and apps for methodology of teaching
  - Epson interactive projector

# Meeting agenda

- innovative teaching using ICT
- principles of creation educational podcasts and presentations

- Charlottenlund VGS - the future classroom

# What we were surprised with

- high professionalism in every field
- perfect knowledge of English of all citizens

- outgoing and communicative Norwegians (we expected reserved and cold ones)

- beautiful weather and high prices :)

# Problems we are facing in CZ

- low support from the authorities to implement modern methods of teaching (in fact there is none)
- lack of up-to-date IT equipment
- no conceptual teachers training in ICT and modern methods of teaching
- necessity to learn and explore suitable software by ourselves (timedemanding, inefficient)

# Inspiration for us

- more frequent use of flipped classroom way of teaching
- use of QR codes 
- more frequent use of cooperative learning and group work

# Thank you...

- for perfectly organized week
- for loads of inspiration
- for giving us new verve for our work
- for the weather you've arranged :-)
- for all

# Looking forward to...

- meeting all of you again (both as individuals and different cultures)
- sharing more ideas and experience in modern methods of teaching

**Thank you so much and see  
you all soon!**
